LEARNING STANDARDS

What to Watch For

Your Kindergarten Child Will:

- Observe and describe common objects using simple tools such as hand lenses, rulers and measuring cups.
- Compare and sort living and nonliving things.
- Know that most living things need food, water and air.
- Observe and describe the environment using all five senses.

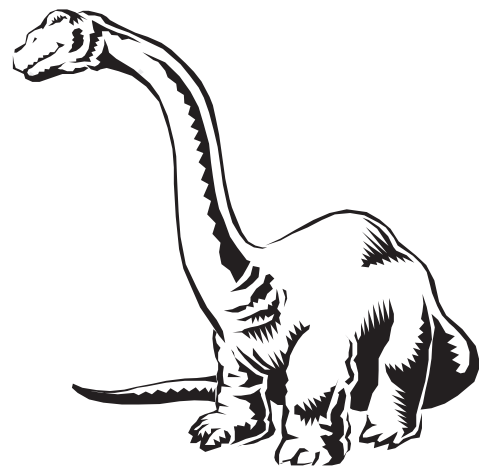

- Go to the library and borrow books on topics that interest your child such as animals, insects or weather and read them together.
- Explore the world around you by watching the weather or birds at a feeder.

Questions to Ask Your Child:

- What more can you tell me?
- What would you think will happen if . . . ?
- What do you notice. . . ?
- What else do you wonder about?
- What is your evidence for . . . ?

What You Can Do:

- Explore your child's interest together and encourage your child's curiosity.
- Visit a nature center, science museum, zoo, aquarium or the planetarium. Free "Museum Adventure Passes" are available through the public library.
