

# MATH - Pre-kindergarten

## LEARNING STANDARDS

2+5

### What to Watch For

#### Your Pre-kindergarten Child Will:

- Count in order to 20.

**Try this:** Count these objects aloud together: crackers, stairs, plates or silverware. Use words like *how many*, *more*, and *less*.

- Sort and organize objects into similar groups.

**Try this:** Make collections of different objects: buttons, socks, leaves, sticks, or rocks and sort by color, size or shape. Put similar items in containers.

- Recognize and copy simple patterns.

**Try this:** Provide opportunities for children to make patterns with natural or household objects and materials.

- Identify and name common shapes.

**Try this:** Find and name shapes in the world around you. Read books about shapes such as *It Looks Like Spilt Milk* by Charles G. Shaw.

- Recognize that objects can be measured by height, length, weight, and time.

**Try this:** Measure your child's height and objects around the home with string and compare. Read *Peter's Chair* by Ezra Jack Keats.

#### Questions to Ask Your Child:

- What makes these the same? (Or different?)
- How do you know that?
- Can you draw a picture to show what you are thinking?
- Is there another way to show that?

#### Games that Teach Math Concepts:

- I Spy
- Dominos
- Puzzles
- Blocks and building materials
- Candy Land
- Connect Four
